PT & MT LEVEL II COURSE in August 2021

Overview:

Penetrant Testing (PT) and Magnetic Particle Testing (MT) is Non-Destructive Testing method used to find surface discontinuities.

Workshop Details:

This course is based on the BIS 13805 standard, published by Bureau of Indian Standard. This is a central certification certification scheme, whereby the examination and certification are in the scope of National Certification Board (NCB) for short. Central certification by NCB will enable candidates to perform NDT job for various government companies such as NTPC/NPCIL/BHEL/BARC., etc. The course content also meets and exceeds the requirements of almost all other certification schemes. Due to excellent understanding and training, NCB certifications are acknowledged by private organisations also.

Basic Requirements:

Any individual appearing for above course has to register himself by filling the attached application form with required documents.

https://drive.google.com/file/d/1vtMJeeH_jdQIQLHzfG1pP2Ypfbch3uCh/view?usp=sharing
